Event: Community Work (S.Y.B.Ed)

Date: 03/04/23 to 19/04/23

In-charge: Dr. Vinod Gavit Sir

Venue: Assembly Hall

Time: 10:20 am

Just like we did community work in our first semester, we also did community work in our fourth semester. The community work which was to last one week in the last semester of B.Ed was to be conducted in school, but due to the shortage of time, the scheduled community work was performed in the college itself. Also, clear instructions were given by our internship incharge Dr. Vinod Gavit Sir. The whole class of 54 students was divided into 11 groups consisting of 5 students in each group. Each group had to perform certain activities like morning prayer, thought of the day, blackboard decoration, a moral story, the contribution of the great leaders, reading newspapers and simple tricks or techniques.

Each student had to take one activity and complete it on the day allotted to them. We were told to write each day's report as well as the activities which were conducted in our internship school in semester 3 and 4. Three college events followed by at least five activities conducted during internship school were added.

Educational Implications:

1. Learning about leadership skills
2. Time management
3. Team work
4. Development of communication skills
5. Problem-solving attitude

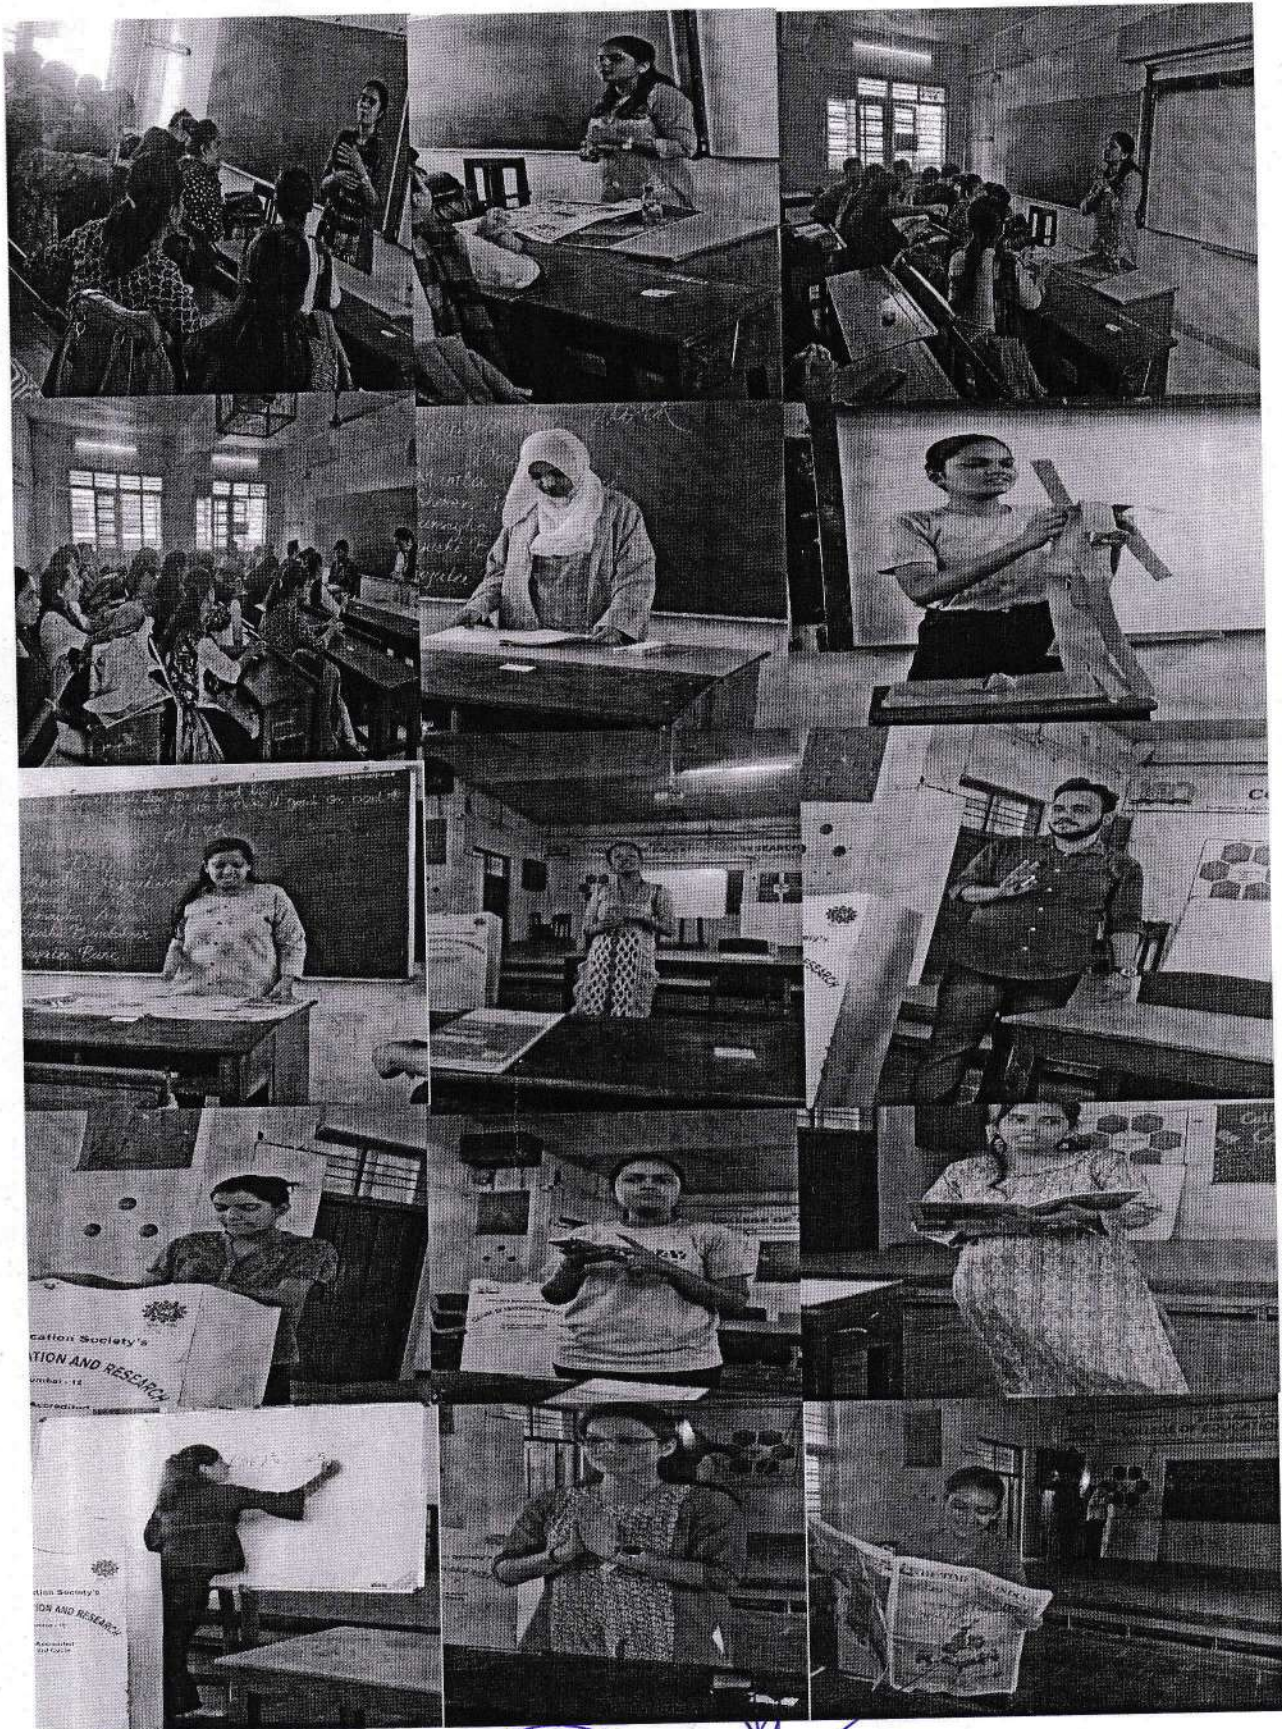

Social work is a form of professional service to get to know about our society. We are a part of our society, it is our duty to something for the welfare of the society. Through this community work, we student-teachers of Gokhale Education Society's College of Education and Research, got an opportunity to inculcate the values and teach students appropriately through learning as well as through morning prayer and assembly.

COURSE: F. Y. B. Ed

Academic year: 28/3/2022to 01/04/2022

SEMESTER: 1

COMMUNITY WORK PROGRAM REPORT

Place:

1.R. M. Bhatt High School

2. Maharashtra School

3. Sane Guruji School

4. Abhyudaya School

Community work for F.Y. B.Ed. Students was organized under the guidance of Dr. Vinod Gavit Sir. The students had to visit the school and help the S.Y. B.Ed. students who were undergoing internship over there. The first year students were divided into four group – some were called in the morning session while others were called in the afternoon session. The students helped the class with

1. Doubt-solving.
2. Creative writing
3. Drawing
4. Maths Tricks
5. Sports
6. Singing
7. English language activities

They also helped to maintain the class in order. Many students engaged the class as in they conducted some revision sessions, on the last day, students were asked to conduct one informative and awareness session on environment. It was followed by all the students. At last students submitted report.

INTERNSHIP REPORT

Internship programme is an essential practicum activity of B.Ed. programme. It is systematically planned in Semester II , III and IV. Practice teaching schools are identified as per the strength, and distance. Faculty members approach selected schools and permission letters are sent to the selected schools. Faculty members inform school principals and supervisors about internship programme. Students' method wise (pedagogy of school subjects) data is collected and Practice teaching lesson groups are made. Teacher trainees are oriented about internship programme, Practice lessons, academic and administrative activities and preparation of reflective journal by the lesson committee in charges. The students are also explained about their role as a teacher in the school during the internship programme. The students are explained about the assessment procedures which will be adopted to evaluate their performance during internship in the school .Guidance for different activities and practice teaching lessons is planned and executed in groups. The internship activities are supervised by the staff in different schools. The Internship activities were conducted in as offline mode. Internship was conducted offline for Sem II and III and. semester IV.
